RON DESANTIS WANTS TO COMPLETELY BAN ABORTION

Ron DeSantis has already signed an abortion ban with no exceptions for rape or incest. But that's not extreme enough for him - he wants to go even further.

DeSantis has vowed to completely ban abortion if he wins another term as Florida's Governor.

A complete abortion ban is an incredibly extreme policy that would put lives in danger and force women to give birth against their will:

- Women who suffer miscarriages would be in grave danger.
- Doctors and medical professionals would be thrown in jail.
- Women (and teenagers) across Florida would be stripped of the right to make their own medical decisions - in many cases before they even know that they're pregnant.

Playing political games with personal health care decisions and dangling bans over women's heads is cruel and dangerous, and it will make Florida less free for everyone.

FIND ASSISTANCE FOR COST, TRAVEL, AND MORE:

Under DeSantis's extreme policies, women in Florida will need to find other ways and means to protect their health and freedoms.

This pamphlet is designed to be a guide to help women find states that protect reproductive freedoms so they can make their own healthcare decisions - without interference from Ron DeSantis.

RON DESANTIS APOYA LA PROHIBICIÓN TOTAL DEL ABORTO

Ron DeSantis ya firmó una prohibición del aborto sin excepciones por violación o incesto. Pero eso no es lo suficiente extremo para él - él quiere ser más extremista.

Ron DeSantis juró prohibir por completo el aborto si gana otro mandato como gobernador de Florida.

La prohibición total del aborto es una política bastante extremista que pondría vidas en peligro y obligaría a las mujeres a dar a luz en contra de su voluntad:

- Las mujeres que sufren pérdidas espontáneas estarían en grave peligro.
- Los médicos y profesionales de la salud serían encarcelados.
- A las mujeres (y adolescentes) de Florida se les quitaría el derecho a tomar sus propias decisiones médicas, en muchos casos incluso antes de que sepan que están embarazadas.

Jugar juegos políticos con las decisiones personales de la atención médica, y condenar a las mujeres a estas prohibiciones, es cruel y peligroso, y hará que Florida sea menos libre para todos.
